		DR No. 4	Produce records sufficient to show all calls made and received, including the phone numbers and duration of calls, by all NYPD issued phones between 5:00 p.m. and midnight on June 4, 2020, by every officer of the rank of lieutenant or above who was present at, or otherwise involved in policing, the Mott Haven protest and/or the MAPC in Queens following the Mott Haven protest.	Defendants object to this request on the ground that it seeks irrelevant information; that it would be unduly burdensome for defendants to locate, identify and produce the requested information; and that the request is not proportional to the needs of the case.	It would be unduly burdensome for defendants to identify all calls made to and from every Departmental phone by every ranking officer, including all Lieutenants, Captains, Deputy Inspectors, Inspectors, Deputy Chiefs, Assistant Chiefs, Bureau Chiefs and Chief of Department; the duration of such calls; and the numbers called over a seven-hour time period. Such a massive undertaking would require hundreds of attorney and personnel hours because, first, there is no comprehensive record of all ranking officers who were present for any portion of the demonstration in Mott Haven; as plaintiffs may be aware, the detail rosters defendants have previously produced only identify members of service of the rank of Lt. and below who were present at Mott Haven on June 4, 2020 for any portion of the demonstration. Thus, it would take a large chunk of time to manually collect all records that would capture the activities of all ranking officers on June 4, 2020 from every single precinct, unit, task force, etc. that could possibly have been present in Mott Haven for any amount of time during the specified 7-hour time period. Second, countless more attorney and personnel hours would be wasted as defendants would be required to speak to every single ranking officer present for any portion of the 7-hour time frame and go through their phones for this irrelevant information – not to mention the surely labor-intensive and time-consuming process, and general waste of resources, it would take to harness this data from each and every ranking officer's Departmental phone and produce it to plaintiffs. Locating and producing this information to plaintiffs would be not only unduly burdensome for defendants, but it is not proportional to the needs of the case, as the above-described burden and expense of identifying and obtaining information regarding every single phone call made or received from every ranking officer who was present at Mott Haven over the 7-hour time period, outweighs any likely benefit to plaintiffs.
